

As a division of Ag Growth International, our Nobleford plant is Canada's largest manufacturer of grain aeration and natural air grain drying equipment. We have dealers and distributors nationally and internationally to meet the needs of the Agricultural industry worldwide. Our plant has over 100 employees operating out of 200,000 square feet of manufacturing facilities in Nobleford, Alberta (approx 20 min north of Lethbridge).

**We offer a FREE bus shuttle to our employees that runs from Lethbridge to Nobleford**

### **Manufacturing Technicians- Summer Employment**

Reporting to the Production Supervisor, our summer staff help our plant meet production demands during the peak summer months.

#### **Key Job Duties Include:**

- Assemble materials using hand and power tools
- Working safely and efficiently, following safety rules and standard operating procedures
- Assembly and packaging of finished product
- Following engineered drawings and standard work instructions to ensure product quality

#### **Primary Qualifications:**

- Ability to lift 30-50 pounds
- Experience with hand tools
- Basic Math skills and ability to read and write English

**We have positions available in several departments and offer a competitive wage and free transportation to and from work! Great position for students!**
